A RIDE TO KHIVA
BY
CAPTAIN FRED BURNABY,
Royal Horse Guards.
Page 13 says:—"Two pairs of boots lined with fur were also taken; and for physic—with which it is as well to be supplied when travelling in out-of-the-way places—some quinine, and Cockle's pills, the latter a most invaluable medicine, and one which I have used on the natives of Central Africa with the greatest possible success. In fact, the marvellous effects produced upon the mind and body of an Arab Sheik, who was imperious to all native medicines, when I administered to him five
COCKLE'S PILLS,
will never fade from my memory; and a friend of mine, who passed through the same district many months afterwards, informed me that my fame as a 'medicine man' had not died out, but that the marvellous cure was even then a theme of conversation in the bazaar."

A GOOD FAMILY MEDICINE CHEST with a prudent use, has saved many a life; and yet we think the idea might be improved upon, and reduced to a more simple form. Take some good compound, such as
COCKLE'S ANTIBILIOUS PILLS,
and we find want the desired end may be obtained without scales and weights, or little mysterious compartments, or enchanted bottles with crystal stoppers. Others might be used, but
COCKLE'S PILLS,
As tested by many thousands of persons, and found to answer their purpose so well, may be set down as the best.—*Observer.*

WHAT IS TRUTH!
TRUTH is a solid "FACT," more solid than the granite rock; it is the richest coin of the purest metal, free from alloy of every description. The shaft of envy will not face it; neither will the shots of prejudice enter it. It is surrounded on all sides by a thousand foes; but each and all, without exception, are mute beneath its piercing glance.
It is a Fact as solid as the above, that
BEECHAM'S PILLS,
which have been before the public for thirty years, have now become one of the leading Patent Medicines at the present day. From North to South, and from East to West, they are to be found in the cottage of the rich and the poor. All classes of society use them, and they are by thousands declared to be
WORTH A GUINEA A BOX.
For females of all ages these Pills are invaluable, as a few doses of them carry of all gross humours and open all obstructions, if any exists that is required. No female should be without them. There is no medicine to be found equal to BEECHAM'S PILLS for removing any obstruction or irregularity of the system. If taken according to the directions given with each box they will soon restore females of all ages to sound and robust health.
For a Weak Stomach, Impaired Digestion, and all Disorders of the Liver, they act like "MAGIC," and a few doses will be found to work wonders on the most important organs in the human machine. They strengthen the whole muscular system, restore the long-lost complexion, bring back the keen edge of appetite, and arouse into action, with the ROSEBUD of health, the whole physical energy of the human frame. These are "FACTS," admitted by thousands, embracing all classes of society; and one of the best guarantees to the Nervous and Debilitated is BEECHAM'S PILLS, which have the Largest Sale of any Patent Medicine in the World.
BEECHAM'S PILLS
Are admitted by thousands to be worth above a Guinea a Box for Bilious and Nervous Disorders—such as Wind and Pain in the Stomach, Sick Headache, Giddiness, Fulness and Swelling after Meals, Dizziness and Drowsiness, Cold Chills, Flushings of Heat, Loss of Appetite, Shortness of Breath, Costiveness, Scurvy and Blotches of the Skin, Disturbed Sleep, Frightful Dreams, and all Nervous and Trembling Sensations, &c., &c. The first dose will give relief in twenty minutes.
This is no fiction, for they have done it in thousands of cases. The Proprietor of these Pills, having obtained (at great expense) a Patent for them, challenges the world to produce a medicine to equal them in removing the above named complaints, and restoring the patient to sound and lasting health. Every one who has once tried them will be one box of these Pills, and they will be acknowledged to be
THE RIGHT THING IN THE RIGHT PLACE.
CAUTION.—The Public are requested to note that the words "Beecham's Pills, St. Helen's," are on the Government Stamp affixed to each Box of the Pills; if not on, they are a Forgery.
☞ Prepared only, and Sold Wholesale and Retail, by the Proprietor, THOMAS BEECHAM, St. Helen's, Lancashire, in Boxes, 1s. 1½d. and 2s. 9d. each. Sent Post-free for 15 or 36 Stamps.
Sold by all Druggists and Patent Medicine Dealers in the United Kingdom.
N.B.—Full directions are given with each Box.

"THEY HAVE NO EQUAL."
This is the universal opinion of everybody who has tried DR. SCOTT'S ELECTRIC PILLS that is required. No female should be without them. IMPORTANT NOTICE.
MR. G. MITCHELL
OCULIST AND AURIST,
Of the Leeds Eye and Ear Dispensary,
68, GREAT GEORGE-STREET, LEEDS.
Attendance—Daily, 10 to 2; Saturdays, till 6.
Anyone who is at all acquainted with the working of our "Medical Charities" will be aware that great numbers attend those institutions who are able to pay for treatment, thus developing a humiliating and servile spirit, abusing benevolence, and injuring those persons who really need such charity; also the knowledge that these places are the great schools of experiment and experience for all manner of "Eye Faculty," and are the places where the constant influx of students of all grades of intelligence receive their practical initiation, must be very painful to the sensitive feelings of any patient.
Many who have no faith or confidence in the doctor's skill of treatment in Eye or Ear Diseases, or of the great cost subjected to, can obtain, in this PROVIDENT SYSTEM, by which they are provided with the best treatment at moderate charges, without being indebted to any one, thus fostering a spirit of independence and forethought, and avoiding great loss of time caused by the long and annoying delays constantly happening to those who attend Charitable Institutions.
On this important branch of the subject, the *Lancet* of April 5th, 1879, has the following exceedingly pertinent remarks:—
"The study of Ophthalmic Surgery and Medicine is at present greatly neglected in the ordina course of Medical Education, multitudes frequently obtaining their Diploma with little or no knowledge of the diseases of the Eye. The consequences of this, both to the public and to the practitioner themselves, are very serious. The advances made in Ophthalmic Surgery during the last twenty-five years render it advisable that it should be taught as a separate subject."
It is to supply this want that the PROVIDENT INSTITUTIONS have been established, and Patients may feel sure of receiving the best treatment from Mr. MITCHELL, who has made the Organs of Sight and Hearing a life study.
"Eyes," the *Sheffield Post* of July 22nd, 1876, says:—
"The many cures brought about at these institutions by Mr. Mitchell, the eminent oculist, has for a long time been a matter of much comment and great wonderment. With all due regard for professional exclusiveness, with all proper respect for their curious, if conscientious, conservatism, we cannot shut our eyes to facts. Instances constantly occur wherein it is demonstrated in a manner most agreeable to the patient that blindness, whole or partial, may be, and can be, cured in these institutions, even when ordinary practitioners have failed to produce any beneficial result. Nor have we far to seek for the proofs of this all but miraculous success. For more than forty years the principal of these provident institutions has made the eye and the ear his exclusive and unremitting study—an advantage which cannot be claimed by ordinary practitioners, since their attention is generally divided among the MANY ills that flesh is heir to. Moreover, these provident institutions possess other highly important advantages over the purely charitable foundations, inasmuch as they foster a spirit of independence by demanding a fee, however small, from each patient. These facts, in conjunction with the consideration that there is no waiting—as is too often the case at the "Charities"—and it is not surprising that these institutions, with Mr. Mitchell at their head, should become so popular as they are."
TESTIMONIALS.
Mr. Mitchell has pleasure in submitting the following from the numerous and flattering testimonials with which he has been honoured:—
Important testimonial from John Burrows, Esq., late superintendent of the Leeds Police Force, who writes, April 21st, 1879:—"I am grateful in being able to add my testimony to the efficacy of your treatment of the eye. I had totally lost the sight of my right eye for a week previous to coming to you on the 21st March, but in fourteen days I could see to read, and having been under your treatment for one month my sight is restored.
"Yours gratefully, J. BURROWS."
John Tweart, of Longwitton-by-Morpeth, Northumberland, on June 4th, 1878, writes:—"I beg to thank you for your kindness to me in restoring my sight. After being twelve months unable to follow my employment, and during that time had the advice of no less than eight medical men, but received no benefit from their treatment; being recommended to place myself under your care, I am happy to state that after being under your treatment for the short period of one month I have quite recovered my sight, and am as good in health and eyesight as ever I was in my life."
Medical Testimony on the above case.
"I am happy to state that my patient, John Tweart, has now quite recovered his sight, and many thanks to you for the kindness you have shown to him. I hope he will by your treatment be well known throughout the country, as he has only you to thank, and you alone, for the recovery of his sight, so that he can once more follow his employment."
Remarkable Cures of Deafness.
A patient writes, April 29th, 1876:—"Having been subject to deafness for twelve months, I put myself under Mr. Mitchell's treatment for one week, and have received considerable benefit.—Aaron Ash, West Don-street, Sheffield."
Cure of Deaf
"Bodley, July 31st, 1876.—I have great pleasure in saying that, after being very deaf for about five weeks, I received no pain, and, following your treatment for three weeks, I can truly say that I am as well as ever I was.—Thos. Whittam."
ARTIFICIAL HUMAN EYES
Fitted in a few minutes without pain or operation, from 20s. each. Spectacles and eye preservers from 2s. 6d. to 21s.
FEES—Medicine and Advice £1 per month, or 5s. per week.
A GENERAL FAMILY APERIENT MEDICINE.
BEECHAM'S PILLS are unequaled as a mild—warm and soothing in its effect—gives tone and vigour to the digestive secretions—causes the stomach and liver to resume their activity—restores the appetite—promotes digestion—induces cheerfulness—strengthens the whole system—is a great boon. Such a medicine
DR. SCOTT'S BILIOUS and LIVER PILLS,
prepared without mercury, will be found to be. Heads of households should always have a box by them, to resort to on any sudden occasion of ailing on the part of those under their charge, as by paying attention to the regular action of the Stomach, Liver, and Bowels, many a severe illness is avoided or mitigated. They will be found, in slight cases, by a single dose, to restore health to the body, with a happy frame of mind. These Pills have now been before the public for over 70 years, and may be relied upon as a cure for Bilious and Liver Complaints, Wind, Spasms, Foul Breath, Nervous Depression, Irritability, Lassitude, Dyspepsia, Heartburn, &c. Prepared only by W. LAMBERT, 11, Vere-street, London, W., in boxes 1s. 1½d., and 2s. 9d., or post free for 14 or 34 stamps, and sold by all Chemists. The genuine are in a square green package. Take no other.

THE BLOOD—being the source from which our systems are built up, and from which we derive our mental as well as physical capabilities, how important that it should be kept pure! If it stands vile festering poisons, all organic functions are weakened thereby, settling upon important organs, as the lungs, liver, or kidneys; the effect is most disastrous. Hence does it behove every one to keep their blood in a perfectly healthy condition, and more especially at this season of the year. No matter what the exciting cause may be, the real cause of a large proportion of all diseases is bad blood.

From "English Mechanic and World of Science" of August 16, 1878:—
"Rash.—From your advertisement I should imagine your friend suffers from 'Chronic eczema.' This I have had occasionally for some years, and have had the best of all medical advices, but apparently of no value, as the rash seems, under medical treatment, to remain just as it was. I have, however, obtained considerable relief by the taking 'Clarke's Blood Mixture,' and although I never care to recommend patent medicines, yet this one appears to merit a recommendation. Try it. "Goulgong, New South Wales, May 25, 1878.
Sir,—I am very badly attacked with a skin disease called in this colony 'Prickly Heat,' and was recommended to try your 'Blood Mixture.' I purchased one bottle, and it effected a perfect cure. I have recommended it to many persons afflicted with the same complaint with similar results. If you think this testimonial likely to be of service to you, make use of it in what way you please.—I am, sir, yours truly, "G. E. SHEITLE."

(DRIVER'S STORES).
"Sir,—You are aware that we sell a large quantity of your medicine. My object in writing to you is to make you acquainted with two cases that have come under my personal notice. One was a very serious cancer on the cheek (on the cheek-bone near the eye). The sufferer, a lady, had been to several medical men, also two or three hospitals, but got no relief. A friend induced her to try your Blood Mixture; she soon obtained speedy relief, and is now quite cured. The other case was of a lady suffering from eczema all over the body, with the exception of the face and hands. She had had this painful disease from the time she gave birth to her first child. She took one bottle, and I consider it my duty to acquaint you with these facts.
I am, yours obediently,
"H. PALMER."
"P.S.—Many minor cases I could mention equally successful."

From James Williamson, Dispensing and Analytical Chemist, Scarborough.
"Mr. F. J. Clarke. Jan. 2, 1877.
"Dear Sir,—A most wonderful case of the efficacy of your medicine has transpired here, to which really, if not knowing the fact, I was not prepared to give credence. A gentleman of great wealth and of almost world-wide fame and renown, staying here for a time, was dreadfully affected with an unsightly disagreeable itching eruption, and, as he declared it, general bone pain. He consulted the most eminent medical men in the province, and ultimately Sir J. Paget, of London, who designated it 'Gout and its Consequences.' He found no relief from anything. Some poor woman recommended your 'Blood Mixture.' He was strongly averse to quackery, as he termed it, but, backed by my recommendation, he was induced to try 'The Blood Mixture,' and the first bottle—as it were—at once checked the heat and itching, and a regular persistence and continuance for a short time has well nigh worked a miracle. The better half of the man still says how delighted and grateful his master is, and also anxious for such a change. He is now able to get about and travel as usual. I wish he could be prevailed to give a testimonial. His name and the patent but would be priceless.—Yours truly,
"J. WILLIAMSON."

CLARKE'S WORLD-FAMED BLOOD MIXTURE.
CLARKE'S WORLD-FAMED BLOOD MIXTURE.
IMPORTANT ADVICE TO ALL.—Cleanse the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, and sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will teach you when. Keep your blood pure, and the health of the system will follow.

SPECTACLES FOR WEAK SIGHT,
SPECTACLES FOR NEAR SIGHT,
SPECTACLES FOR COUCHED EYES,
SPECTACLES FOR DRIVING,
Can be obtained of
D. STUART (the oldest established Working Optician and Spectacle Maker in Hull), No. 72, Carr-lane, Hull. D. S. most respectfully informs the public he has a Practical Optician and Spectacle maker in all the various branches, and he respectfully solicits an inspection of his Eye Preserving Spectacles.
Any article left and not called for within three months will be forfeited.
D. Stuart wishes it to be understood that his method for suiting the eye with Spectacles is founded on experience in an extensive practice, and adopted with great success for upwards of forty years, and he respectfully informs invalids, and persons residing at a distance, that he can suit them correctly (without a personal attendance), by sending their old glasses, or the distance at which they see best without any, etc.
The Public are cautioned against the use of spectacles obtained from roving places of sale, from persons totally ignorant of the human eye and of optics, as from the want of such caution hundreds of people seriously injured their sight, and many have lost it altogether.
At home from 8 a.m. to 7 p.m. for consultation by those who require the assistance of his improved Spectacles.
Any article purchased and not approved of will be exchanged.
CAUTION!—D. S. neither employs nor supplies any hawker with his Improved Spectacles. The Public will do well to guard against Impostors offering their trash. Second-hand Jobbing, etc., etc.
D.S. will give any person a reward of £5 who will give such information as will lead to the conviction of any the impostor fraudulently representing themselves to be connected with the firm of D. Stuart.
Spectacle Cases 1½d. to 12 guineas. Gold Spectacles up to £7 12s. per pair.
Note the address—D. STUART (Removed to 72, Carr-lane, opposite the old Shop), Hull.
Observe the large Spectacles over the door.
