CLARKE'S WORLD-FAMED BLOOD MIXTURE.

THE BLOOD—being the source from which our systems are built up, and from which we derive our mental as well as physical capabilities, of how important that it should be kept pure! If it contains vile festering poisons, all organic functions are weakened thereby, settling upon important organs as the lungs, liver, or kidneys; the effect is most disastrous. Hence does it behove every one to keep their blood in a perfectly healthy condition, and more especially at the spring and fall of the year. No matter what the exciting cause may be, the real cause of a large proportion of all diseases is bad blood.

TESTIMONIAL.

"5, Walton-street, Miles Platting, Manchester, June 24th, 1879.

"I have suffered from a bad leg for the last 16 years, and have been under treatment of several physicians without deriving any benefit; but having been advised to try your 'Blood Mixture,' I did so, and on persevering with it and your 'Salve,' I am glad to say that it has completely cured me. I also find my general health much better.

(Signed) "MARY MORLEY."

"I can certify to the above being correct, she having purchased your medicines from me.—Yours, &c.

TESTIMONIAL.

From "English Mechanic and World of Science" of August 16, 1878:—

"Rash.—From your query I should imagine your friend suffers from 'Chronic eczema.' This I have had occasionally for some years, and have had the best of advice, but apparently of no value, as the rash succeeds other troublesome treatment, to remain just as it was. I have, however, obtained considerable relief from taking 'Clarke's Blood Mixture,' and although I never care to recommend patent medicines, yet this one appears to merit a recommendation. Try it. "Goulgong, New South Wales, May 25, 1878.

Sir,—I am very badly attacked with a skin disease called 'Barcoo Rot' in this colony 'Prickly Heat,' and was recommended to try your 'Blood Mixture.' I purchased one bottle, and it effected a perfect cure. I have recommended it to many persons afflicted with the same complaint with similar results. If you think this testimonial likely to be of service to you, make use of it in what way you please.—I am, sir, yours truly, "G. E. SHETTLE."

TESTIMONIAL.

36, York-road, Waterloo-road, London. March 20, 1878.

(DRIVER'S STORES).

"Sir,—You are aware that we sell a large quantity of your medicine. My object in writing to you is to make you acquainted with two cases that have come under my personal notice. One was a very serious cancer on the cheek (on the cheekbone near the eye). The sufferer, a lady, had been to several medical men, also two or three hospitals, but got no relief. A friend induced her to try your Blood Mixture; she took it, obtained great relief, and is now quite cured. The other case was of a lady suffering from scrofula all over the body, with the exception of the face and hands. She has had this painful disease from the time she gave birth to her first child. She is now quite well, and I consider it my duty to acquaint you with these facts.

I am, yours obediently,
"H. PALMER."

"P.S.—Many miner cases I could mention equally successful."

TESTIMONIAL.

From James Williamson, Dispensing and Analytical Chemist, Scarborough.

"Mr. F. J. Clarke, Jan. 2, 1877.

"Dear Sir,—A most wonderful case of the efficacy of your medicine has transpired here, to which really, it is not knowing the fact, I was not prepared to give credence. A gentleman of great wealth and of almost world-wide fame and renown, staying here for a time, was painfully affected with an unsightly disagreeable itching eruption, and, as he described it, general bone pain. He consulted the most eminent medical men in the provinces, and ultimately Sir J. Paget, of London, who designated it 'Gout and its Consequence.' He found no relief from anything. Some poor woman recommended your 'Blood Mixture.' He was strongly averse to quackery, as he termed it, but, backed by my recommendation, he was induced to try 'The Blood Mixture,' and the first bottle—as it were a charm—relieved the heat and itching, and a regular permanent improvement for a short time has well nigh worked a miracle. The bubble has just been in, and says how delighted and grateful his master is, and also astonished at such a change. He is now able to get about and travel as usual. I wish he could be prevailed to give a testimonial. His name and the patent fact would be priceless.—Yours truly,

"J. WILLIAMSON."

CLARKE'S WORLD-FAMED BLOOD MIXTURE

IMPORTANT ADVICE TO ALL.—Cleanse the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, and sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will teach you when. Keep your blood pure, and the health of the system will follow.

"THEY HAVE NO EQUAL."

This is the universal opinion of everybody who has tried DR. SCOTT'S INDIAN HERB PILLS for BILIOUS and LIVER COMPLAINTS, DIZZINESS, WIND, SPASMS, FOUL BREATH, NERVOUS DEPRESSION, HEPATOPHOBIA, LOSS OF APPETITE, DYSPEPSIA, HEARTBURN, SICK RELATIONS, FLUTTERINGS OF SPIRITS, with sensation of fulness at the pit of the Stomach, GIDDINESS, DIZZINESS OF THE EYES, and all those other symptoms which have been the cause of so much misery, and which only a sufferer can describe. They are invaluable for HABITUAL CONSTIPATION, or for persons suffering from PILES, they will be found most efficacious.

They may be taken at any time without restraint from business or pleasure, and they are a most valuable domestic medicine. Heads of households should always have a box by them. These Pills by them, to resort to on any slight occasion of ailing, on the part of those under their charge, as by paying attention to the regular action of the Stomach, Liver, and Bowels, many a severe illness is avoided or mitigated. They will be found, in slight cases, by a single dose, to restore health to the body, with a happy frame of mind.

A CHEMIST WRITES:—

286, High-street, Brentford, Aug. 22, 1879.

GENTLEMEN,—Perhaps you will be pleased to learn that the sale of Dr. Scott's Pills is increasing; in 1877 I sold 43 boxes, in 1878 74 boxes, and since the 1st January over 100 boxes. They give great satisfaction, and as I do not advertise any Pills myself, I shall continue to recommend them to my customers.

I am, yours &c., JOHN WATER.

Some unprincipled vendors, in order to make a larger profit, will try to persuade you to buy medicine prepared by themselves; do not do so, but insist on having Dr. Scott's BILIOUS and LIVER PILLS, supplied in a square green package, and bearing round the Box a government stamp with the name and address: "William Lambert, 8, King William-street, Charing Cross." These genuine Pills are prepared by W. LAMBERT, 1a, Vere-street, London, W., and sold in boxes, at 13½d. and 2s. 9d., by all respectable medicine vendors, or post free for 14 or 34 stamps.

IMPORTANT NOTICE.

MR. G. MITCHELL,
OCULIST AND AURIST,
Of the Leeds Eye and Ear Dispensary,
65, GREAT GEORGE-STREET, LEEDS.
Attendance—Daily, 10 to 2; Saturdays, till 6.

Anyone who is at all acquainted with the working of our "Medical Charities" will be aware that great numbers attend those institutions who are able to pay for treatment, thus developing a humiliating and servile spirit, abusing benevolence, and injuring those persons who really need such charity; also the knowledge that these places are the great schools of experiment and experience for all members of the medical profession, and the places where the constant influx of students of all grades of intelligence receive their practical initiation, must be every painful to the well-educated mind of any patient.

Many who have no faith or confidence in the doctor's skill of treatment in Eye or Ear Diseases, or of the great cost subjected to, are now availing themselves of the PROVIDENT SYSTEM, by which they are provided with the best treatment at moderate charges, without being indebted to any one, thus fostering a spirit of independence and forethought, and avoiding great loss of time caused by the long and annoying delays constantly happening to those who attend Charitable Institutions.

On this important branch of the subject, the *Lancet* of April 5th, 1879, has the following exceedingly pertinent remarks:—

"The study of Ophthalmic Surgery and Medicine is at present greatly neglected in the ordinary course of Medical Education, children frequently obtaining their diploms with little or no knowledge of the diseases of the Eye. The consequences of this, both to the public and to the practitioners themselves, are very serious. The advances made in Ophthalmic Surgery within the last twenty-five years render it advisable that it should be taught as a separate subject."

It is to supply this want that the PROVIDENT INSTITUTIONS have been established, and Patients may feel sure of receiving the best attention from Mr. MITCHELL, who has made the Organs of Sight and Hearing a life study.

"Eyes," the *Sheffield Post* of July 22nd, 1876, says:—

"The many cures brought about at these institutions by Mr. Mitchell, the eminent oculist, has for a long time been a matter of much comment and great wonderment. With all due regard for professional exclusiveness, with all proper respect for their curious, if conscientious, conservatism, we cannot shut our eyes to facts. Instances constantly occur wherein it is demonstrated in a manner most agreeable to the patient that blindness, whole or partial, may be, and can be, cured at these institutions, even when ordinary practitioners have failed to produce any beneficial result. Nor have we far to seek for the reason of this all but uniform success. For more than forty years the principal of these provident institutions has made the eye and the ear his exclusive and unremitting study—an advantage which cannot be claimed by ordinary practitioners, who have their attention unhappily divided among the MANY ills that flesh is heir to. Moreover, these provident institutions possess other highly important advantages over the ordinary medical institutions, inasmuch as they foster a spirit of independence by demanding a fee, however small, from each patient. These fees, in conjunction with the strictness of rule, allow no waiting—as is too often the case at the "Charities"—and it is not surprising that these institutions, with Mr. Mitchell at their head, should become so popular as they are."

TESTIMONIALS.

Mr. Mitchell has pleasure in submitting the following from the numerous and flattering testimonials with which he has been honoured:—

Important testimonial from John Burrows, Esq., late superintendent of the Leeds Police Force, who writes, April 21st, 1879:—"I am grateful in being able to add my testimony to the efficacy of your treatment of the eye. I had totally lost the sight of my right eye for a week previous to coming to you on the 21st March; in fourteen days I could see to read, and have been under your treatment for one month my sight is restored.

"Yours gratefully, J. BURROWS."

John Tweart, of Longwitton-by-Morpeth, Northumberland, on June 4th, 1878, writes:—"I beg to thank you for your kindness in restoring my eyesight. After being twelve months unable to follow my employment, and during that time had the advice of no less than eight medical men, I have now been able to follow their treatment; being recommended to place myself under your care, I am happy to state that after being under your treatment for the short space of one month I have quite recovered my sight, and am as good in health and eyesight as ever I was in my life."

Medical Testimony on the above case.

"I am happy to state that your patient, John Tweart, has now completely recovered his sight, and many thanks to you for the kindness you have shown to him. I hope he will let your treatment be well known throughout the country, as he has only you to thank, and you alone, for the recovery of his sight, so that he can once more follow his employment.

Remarkable Cures of Deafness.

A patient writes, Sept. 29th, 1876:—Having been subject to deafness for upwards of twelve months, I put myself under Mr. Mitchell's treatment for one week, and have received considerable benefit.—Aaron Ap[illegible], Sheffield."

Cure of Deaf

"Bodley, July 31st, 1878. I have great pleasure in saying that, after being very deaf for about five weeks, I applied to you, and, following your treatment for three weeks, I can truly say that I am as well as ever I was.—Thos. Whittam."

A RIDE TO KHIVA
BY
CAPTAIN FRED BURNABY,
Royal Horse Guards.

Page 13 says:—"Two pairs of boots lined with fur were also taken; and for physic—with which it is as well to be supplied when travelling in out-of-the-way places—some quinine, and Cockle's pills, the latter a most invaluable medicine, and one which I have used on the natives of Central Africa with the greatest possible success. In fact, the marvellous effects produced upon the mind and body of an Arab Sheik, who I administered to with five

COCKLE'S PILLS,

will never fade from my memory; and a friend of mine, who passed through the same district some months afterwards, informed me that my fame as a 'medicine man' had not died out, but that the marvellous cure was even then a theme of conversation in the bazaar."

BURNABY'S RIDE TO KHIVA,

A GOOD FAMILY MEDICINE CHEST with a prudent use, has saved many a life; and yet we think the idea might be improved upon, and reduced to a more simple form. Take some good compound, such as

COCKLE'S ANTIBILIOUS PILLS,

and we find next the desired end may be obtained without scales and weights, or little mysterious compartments, or enchanted bottles with crystal stoppers. Others might be used, but

COCKLE'S PILLS,

As tested by many thousands of persons, and found to answer their purpose so well, may be set down as the best.—*Observer.*

WHAT IS TRUTH?

TRUTH is a solid FACT, more solid than the granite rock; it is the richest coin and purest metal, free from alloy of every description. The shaft of truth, when true it; neither will the shots of prejudice enter it. It is surrounded on all sides by a thousand foes; but each and all, without exception, are mute beneath its piercing glance.

It is a Fact as solid as the above, that

BEECHAM'S PILLS,

which have been before the public for thirty years, have now become one of the most popular preparations of the present day. From North to South, and from East to West, they are to be found in the homes of the rich and the poor. All classes of society use them, and they are by thousands declared to be

WORTH A GUINEA A BOX.

For females of all ages BEECHAM'S PILLS are invaluable, as a few doses of them carry of all gross humours and open all obstructions, and bring about all that is required. No female should be without them. There is no medicine to be found equal to BEECHAM'S PILLS for removing any obstruction or irregularity of the system. If taken according to the directions given with each box they will soon restore females of all ages to sound and robust health.

For a Weak Stomach, Impaired Digestion, and all Disorders of the Liver, they act like "MAGIC," and a few doses will be found to work wonders on the most important organs in the human frame. They strengthen the whole muscular system, restore the long lost complexion, bring back the keen edge of appetite, and arouse into action the dormant energies of the human frame, and the whole physical energy of the human frame. These are "Facts" admitted by thousands, embracing all classes of society; and one of the best medicines ever offered to the Nervous and Debilitated is BECHAM'S PILLS, which have the Largest Sale of any Patent Medicines in the World.

BEECHAM'S PILLS

Are admitted by thousands to be worth a Guinea a Box for Bilious and Nervous Disorders—such as Wind Pain in the Stomach, Sick Headache, Giddiness, Fulness and Swelling after Meals, Dizziness and Drowsiness, Cold Chills, Flushings of Heat, Loss of Appetite, Shortness of Breath, Costiveness, Scurvy and Blotches of the Skin, Disturbed Sleep, Frightful Dreams, and all Nervous and Trembling Sensations, &c., &c. The first dose will give relief in twenty minutes.

This is no fiction, they have done it in thousands of cases. The Proprietor of these Pills, having obtained (at great expense) a Patent for them, challenges the world to produce a medicine equal to them, or one that can be named complaints, and restoring the patient to sound and lasting health. Every sufferer is earnestly invited to try one box of these Pills, and then will they will be acknowledged to be

THE RIGHT THING IN THE RIGHT PLACE.

CAUTION.—The Public are respectfully cautioned to note that the words "Beecham's Pills, St. Helen's," are on the Government Stamp affixed to each Box of the Pills; if not on, they are a Forgery.

☞ Prepared only, and Sold Wholesale and Retail, by the Proprietor, THOMAS BEECHAM, St. Helen's, Lancashire, in Boxes, 1s. 1½d., and 2s. 9d. each. Sent Post-free for 15 or 36 Stamps.

Sold by all Druggists and Patent Medicine Dealers in the United Kingdom.

N.B.—Full directions are given with each Box.

SULPHOLINE LOTION.—An External means of CURING SKIN DISEASES. There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferers for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which always produces a clear, healthy, natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

WINDSOR Castle Collection of Waxworks, Singing Birds, and French Novelties. No extra charge for the Criminal Chamber. Peace, the Bannerooss Murderer. Just added, Kate Webster (Barnes Mystery), Wives, Tay Bridge Disaster, New additions for Christmas —Working Class 2d., all School Children 2d. Admission 1s. THURSDAY APRIL 22, 1880.

LORD GRANVILLE yesterday had an interview with Mr. Gladstone and other prominent Liberals.

A PETITION has been lodged against the return of the Conservative member for Boston.

It is now stated that fully one hundred persons were killed during the terrible gale in America.

No news had been received up to late last evening respecting the missing training-ship Atalanta.

THE position which this country will assume under a Liberal Administration towards Austria is now becoming a subject of much comment.

Up to a late hour last night Lord Hartington had not been sent for, nor had any Queen's messenger visited Earl Granville or Mr. Gladstone.

THE stonemasons in the Potteries and Newcastle district have accepted a reduction of one farthing per hour in wages.

Two little girls who fell into the Humber last evening were rescued through the gallantry of Mr. Gresham and a boatman named Dimsdall.

MORE than 400 residents in Perth are stated to be ill in consequence of the pollution of the town's water by sewage.

THE EARL OF SCARBOROUGH, who has been seriously ill at Belvoir Castle, is stated to be decidedly better.

A HULL tobacconist and two assistants were last evening arrested on a charge of extensive smuggling.

It is stated upon high authority, that the Earl of Beaconsfield last evening, sent his resignation to Her Majesty.

THE inquiry into the loss of the Hindoo was continued yesterday, and the evidence was concluded. Mr. Saxelbye will to-day submit various points for the consideration of the Court. The inquiry will extend over several days.

A FRENCH anti-tobacco society having petitioned M. Lepère to forbid the sale of tobacco to boys under 16, and the smoking by them in taverns and *out-of-door cafés*, he has replied that if the effects of tobacco on youths were as noxious as those of alcohol, legislative interference would be very desirable.

OUR POSITION TOWARDS AUSTRIA.

WE considered the position of Turkey in our last issue. It may not be inadvisable to enquire what will be the relation of this country to Austria. This is needful because, without doubt, recent utterances of Mr. GLADSTONE may lead to the supposition that our Foreign Policy will not be so much *en rapport* with that of the Austro-Hungarian Monarchy as it has been. The Marquis of SALISBURY stated, when it was rumoured that particular arrangements had been made between the German Empire and the Austrian Monarchy, that these were "glad tidings of great joy." Certainly if they were not tidings of peace on earth and goodwill we are at a loss to comprehend what should so be considered. A cordial *rapprochement* between England and Germany on the one hand, and an understanding between Germany and Austria on the other, tends—and must naturally tend—to promote European Peace. If time enough is permitted to elapse the passions and ambitions of the nations will cool down. No country in Europe is so menaced as Austria, and Mr. GLADSTONE'S attack cannot be regarded with anything approaching the complacency with which even ardent Liberals might look upon his foreseen attitude towards Turkey. What are the facts? These are what we have to deal with; not with Liberal or
